

**Remarks**

In the decision of Jan 16, 2003, on the petition, the Petition Examiner recommended filing an *Application Data Sheet* to supply the Inventors' residence and post office addresses. Accordingly an *Application Data Sheet* is provided, herewith.

The application has been amended to meet the Examiner's objections.

At the time the invention[s] were made, all the inventors were obligated to assign their inventions to the assignee. An assignment [copy enclosed] was executed for the invention[s] in the provisional application, including all continuations and divisions.

**Conclusion**

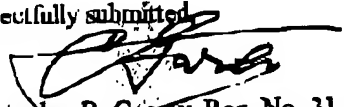

The rejections and objections having been overcome by amendment, the Examiner is earnestly solicited to withdraw the rejections and objections and to allow the application to issue.

Should any impediments to allowance remain, the Examiner is invited to call the Applicant's Attorney, Christopher B. Garvey at 1 516 365 9802, for an interview.

The additional fee of \$55 for a 1 month extension of time should be charged to deposit account 03-2468.

The Commissioner is authorized to credit any overpayment and charge any deficiency to deposit account 03-2468.

Respectfully submitted

  
Christopher B. Garvey, Reg. No. 31,015  
Attorney for Applicants
